

OL™**+ cardconnect®**
A First Data Company

Simple, Secure & Integrated Payments

OL has partnered with CardConnect to offer clients a single source payment solution to streamline and simplify the way you do business.

Two Partners - One Complete Business Solution

CardConnect's powerful payment processing is now built into the OL Connect technology

Credit card processing is now seamlessly integrated into OL Connect to provide users with a simple and secure payment experience. Easily process transactions directly within your browser or the OL mobile application, Capture OnTheGo, for the ultimate single source solution.

Armed with an all-inclusive suite of solutions focused on the ever-evolving needs of merchants accepting credit, debit, check, gift cards and loyalty transactions, CardConnect provides everything you need to consistently grow your business.

With the integration of CardConnect into the OL Connect technology, we offer simple and secure payment processing.

Key Features & Benefits

+ PCI Compliance

With innovative security features like P2PE and tokenization, you and your customers are guaranteed peace of mind with every transaction. Optimally protect your business from a data breach, all while significantly reducing your PCI scope.

+ CardPointe Portal Reporting

CardPointe provides your business with an all-inclusive platform to track and manage transactions from anywhere. Follow every payment from the app to your bank account in one simple solution.

+ Custom Branding To Fit Your Business

Make sure that your business gets the recognition it deserves with the ability to brand your payment interface in a way that customers won't soon forget.

+ Transparent Pricing Keeps You Up To Date

Not only do you get your funds the next day, you'll know exactly what you're paying for each month with low, transparent pricing and easy-to-read statements.
