The call-your-customers-by-name software

PrintShop Mail Connect is a standalone multichannel communications tool for personalisation, easy to use for beginners with advanced capabilities for experts.

Hi!
<YOUR NAME>

@

Build your promotional communications for print and email within the same tool, without having to do the work twice.

With PrintShop Mail Connect, merge any design with any database and create fully personalised direct mail pieces along with rich HTML emails targeted to your recipient's profile.

Personalised messages, images and color make the communication more relevant and thus increase the lifetime value of customers.

Features

Intuitive drag and drop interface.

Wizards for easy document creation

High speed optimised output generation:
